Date this document was created: 01/01/2023

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

Type: Investment company with variable capital

Period: This SICAV was created for a period of 99 years.

Objectives: The objective of the Longchamp Dalton Global Emerging Markets UCITS Fund (the "Sub-Fund") is to generate an annualized net performance higher than that of its benchmark over a recommended 5-year minimum holding period. The benchmark (the "Benchmark") to which the Sub-Fund's performance can be compared is the MSCI Daily Emerging Markets Net Total Return (EUR) Index (symbol: MSDEEMN), compiled by MSCI Inc, which is a total return, free float-adjusted, capitalization-weighted index that is designed to track the performance of large and mid-cap companies across emerging markets countries, as defined by MSCI. The sub-fund's performance may deviate from that of the benchmark given that the sub-fund does not aim to reproduce in any way the performance of the index.

To achieve its objectives, Longchamp AM, as Investment Manager, has chosen to delegate the investment management to an emerging markets manager, Dalton Investments, Inc., based in Las Vegas Nevada, United States (the "Delegated Investment Manager").

The discretionary investment strategy aims to mainly buy securities of companies that are domiciled in Global Emerging Markets Countries, or that derive, or are expected to derive at least 50% of their present and/or future operating profit from Global Emerging Markets Countries, or that have material exposure to Global Emerging Markets Countries, as determined by the Delegated Investment Manager. "Global Emerging Markets Countries" means those countries not included in the MSCI Daily Total Return Net World Index (MSCI World, symbol: NDDUWI). The Sub-Fund focuses on identifying and investing in (a) "value" investments in securities that the Delegated Investment Manager believes are underpriced relative to their intrinsic value or fundamental value or which are expected to appreciate in value if circumstances change or an anticipated event occurs, (b) direct investments in operating and service businesses (not private equity investments, but investments in publicly traded companies in a minority stake) and (c) other investments in securities or instruments that the Delegated Investment Manager believes are undervalued or likely to appreciate. The Sub-Fund invests its assets in equities with a primary exposure to emerging markets, across sectors, industries and geographies as determined by the Delegated Investment Manager in its sole discretion. The Sub-Fund may invest in exchange traded funds ("ETFs") subject to the overall limit of 10% of net assets. The Sub-Fund will not take physical short positions. The Sub-Fund will be fully exposed to the equity market; such exposure will be between 90% and 100% of the Sub-Fund's net assets.

Investments may include securities of companies with any market capitalization range within the following limits measured at time of purchase and expressed as a percentage of the Sub-Fund's net assets:

- Small Cap (market capitalizations < €1bn): 20%;
- Mid Cap (market capitalizations from €1bn to €5bn): 100%;
- Large Cap (market capitalizations > €5bn): 100%.

Alignment of interest between company management and shareholders, history of share buyback programs and dividend increases are important factors considered by the Delegated Investment Manager when assessing an opportunity.

The Sub-Fund may also invest in ADRs (American Depositary Receipts), GDRs (Global Depositary Receipts), EDRs (European Depositary Receipts) and P-NOTES up to 100% of net assets and convertible bonds up to 20% maximum of net assets.

The Sub-Fund may also invest in money market and bond instruments of the OECD area up to 10% of its net assets. However, the Sub-Fund has some flexibility to exceed 10%, and up to 100% of its net assets, in cases where exposure to equity markets is obtained synthetically through derivative instruments. Selected bond instruments may be invested in both public and private sectors. The sensitivity range to interest rate risk will range between 0 and 2. Securities will at least be rated BBB- (S&P) / Baa3 (Moody's) or rating deemed equivalent by the Delegated Investment Manager (Investment Grade) at the time of purchase.

The Sub-Fund may, in a discretionary manner, enter into financial contracts traded on regulated, organized or over-the-counter international markets for purposes of hedging currency exposure (forward exchange contracts) and gaining exposure to equity markets (global return swap agreements (also known as total return swaps), futures or call options).

This share class will be exposed to currency risk.

The Delegated Investment Manager takes environmental, social and governance (ESG) criteria into account in investment decisions among others; however, sizing of individual positions is based on a larger scope of criteria than ESG only.

Leverage: Leverage is calculated as the sum of the market values of equities and equity indices to which the Sub-Fund is directly exposed and through financial contracts, i.e. total long exposure. The leverage level (gross exposure) will be limited to 100% of net assets.

Allocation of income: Capitalization.

Recommended investment period: 5 years minimum. This Sub-Fund would not be suitable for investors planning to pull out their investment before this period.

Subscription and redemption terms: Provided that a significant portion of the portfolio's assets are quoted, the net asset value is calculated is calculated on the basis of the closing prices of each Friday or, if this day is a bank holiday as defined in Article L. 3133-1 of the French Labor Code and/or days when the Paris Stock Exchange is closed (official calendar of Euronext Paris SA) and/or a bank holiday in New York, the next business day (DD). In addition, a net asset value is calculated in respect of the last business day of each month. Subscription and redemption orders are centralized at 12:00pm Paris time 5 business days prior to the net asset value date (DD-5). Delivery of shares and moneys for subscriptions shall occur within 3 business days following the net asset value date (DD+3). Delivery of shares and moneys for redemptions shall normally occur within 4 business days after the net asset value date (DD+4), but no later than the 5th business days (DD+5). The investment manager may apply a price adjustment mechanism (Swing Pricing).

Eligible investors: This fund unit class is available to all investors (except for U.S. Persons).

Depository: Société Générale

Additional information: You may obtain more information about this fund, including, its prospectus and financial reports, free of charge upon request directly to Longchamp AM, 30 rue Galilée, 75116 Paris.

The fund's net asset value is available online at: www.longchamp-am.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Summary Risk Indicator (SRI):

This risk indicator assumes that you stay invested for at least five years. The actual risk incurred may be quite different if you leave the fund prematurely, and this may adversely affect your return. This risk indicator measures this product's level of risk relative to that of other investment products. It reflects the probability that adverse market movements may cause this financial product to suffer a loss, or that we may not be able to pay you.

We have given this product a medium risk class rating of 4 out of 7. This means that it has a medium level potential for loss, and that Longchamp Asset Management may not be able to fully redeem your investment if market conditions deteriorate. This may affect Longchamp AM's ability to pay you.

The SICAV may also be exposed to the following risks which are not covered by the risk indicator:

Counterparty risk: This is the risk that a counterparty to an over-the-counter transaction with the fund may be unable to honour its contractual obligations.

Liquidity Risk: This is the risk that a financial market will be unable to accommodate the volume of trading.

Credit Risk: Deterioration in the credit quality of an issuer.

PERFORMANCE SCENARIOS

The figures shown below account for all the costs that are inherent to the financial product, but not necessarily all of the fees you may owe to your advisor or distributor. They also do not take into account your personal tax situation, which may also affect the amounts you receive.

Your return from this fund depends on the future performance of financial markets. Future market movements are random and cannot be accurately predicted. The unfavourable, intermediate and favourable scenarios presented below are examples based respectively on the fund's worst, median and best returns and on the average performance of the appropriate benchmark index over the last five years.

Markets may behave quite differently in the future. The stress scenario shows what you might get in extreme market situations. It is not easy to liquidate an investment in this product. You have no guarantee if you leave the fund before the end of the recommended holding period.

Recommended detention period: 5 years Example of investment: € 10 000		If you exit after 1 year	If you exit after 5 years
Stress	What the Investor might get back after costs	-	-

WHAT HAPPENS IF LONGCHAMP ASSET MANAGEMENT IS NOT ABLE TO MAKE THE PAYMENTS?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In case of default of the portfolio management company, the assets of the product kept by the custodian will not be affected. In case of default of the custodian, the risk of financial loss of the product is mitigated due to the legal segregation of the assets of the custodian from those of the product.

WHAT ARE THE COSTS?

The person selling you this product or giving you advice about it may ask you to pay additional costs. If so, that person will tell you about those costs and show you how those costs affect your investment. The tables below show the amounts taken from your investment to cover the various costs. These amounts depend on the amount you invest and on how long you hold your investment. The amounts shown here are examples based on a hypothetical investment amount and different possible investment periods.

We have assumed the following:

- that in the first year you would get back the amount you invested (0% annual return)
- that for the other holding periods the product will perform as shown in the intermediate scenario.
- EUR 10 000 is invested.

COSTS OVER TIME

	If you exit after 1 year	If you exit after 5 years
Total costs	-	-
Impact on return (RIY) per year (*)	-	-

COMPOSITION OF COSTS

The table below shows:

- the impact of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories

One-off costs upon entry or exit	Annual cost impact if you exit after 1 year.	
Entry costs	5.00% of the amount you pay in when entering this investment	Up to 500 €
Exit costs	0.00% of your investment before it is paid out to you	Up to 0 €
Ongoing costs taken each year		
Management fees and other administrative or operating costs	% of the value of your investment per year. This is an estimate based on actual costs over the last year.	-
Transaction costs	% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	-
Incidental costs taken under specific conditions		
Performance fee	There is no performance fee for this product.	-

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

REQUIRED MINIMUM HOLDING PERIOD: 5 YEARS

This fund may not be appropriate for investors who plan to withdraw their money within less than five years. The recommended holding period is intended to minimise the risk of capital loss on your investment if redeemed after this period. It does not however constitute a guarantee.

HOW CAN I COMPLAIN?

Shareholders have the right to complain free of charge and have the possibility to lodge their complaints at the registered office of the Company: Longchamp Asset Management, 30 rue Galilée - 75116 - Paris, and on our website: www.longchamp-am.com.

OTHER RELEVANT INFORMATION

The legal documents are available on request and free of charge from the management company or on the website: www.longchamp-am.com
