## What is this product?

### Type

This is an investment fund established as an Irish Collective Asset-Management Vehicle (ICAV).

### Objectives

**Investment objective** The investment objective of the Sub-Fund is to achieve an attractive long-term capital appreciation.

**Investment policies** The Sub-Fund will take both long and short positions primarily in shares and similar securities of companies which are domiciled, listed or traded on markets in the Asia Pacific region, or companies which derive, or are expected to derive, a significant portion of their present or future revenue from the region. The Sub-Fund may invest in shares of any size of company, but will be focused on companies with a market capitalisation of more than US\$500million. It will seek industry and sector diversification, including by having a minimum of 2 industry sectors and a maximum exposure to any single industry sector of 50% of Net Asset Value.

The Sub-Fund may invest in collective investment schemes for investment purposes or for hedging purposes or to provide exposure to financial indices and shares and other securities that are consistent with the investment policy of the Sub-Fund. The Sub-Fund may also invest in fixed income securities such as government or corporate bonds, with up to 25% of the Net Asset Value of the Sub-Fund potentially invested in sub-investment grade bonds (rated as higher risk).

Derivatives used by the Sub-Fund may include swaps, options, futures, warrants, forwards and contracts for difference and derivatives may be used to invest indirectly in shares or to hedge part or all of the investment risk in the Sub-Fund's portfolio. All short positions will be taken through derivatives. A derivative is a contract the value of which depends on the change in price of an agreed-upon underlying financial asset, index or security and which gives the holder the economic effect of an investment in the underlying asset without actually having to acquire it.

As a result of using derivatives, it is expected that at any given time, the maximum net long exposure of the Sub-Fund is limited to 150% of the Net Asset Value, the maximum net short exposure of the Sub-Fund is limited to 100% of the Net Asset Value while on a gross basis, the total value of the Sub-Fund's long and short positions may be up to 250% of the Net Asset Value at any one time

As well as exchange traded funds, the Sub-Fund may invest in other collective investment schemes which enable the Sub-Fund to achieve its investment objective. The Sub-Fund may invest in cash and money market instruments for cash management purposes. The Sub-Fund may also enter into repurchase, reverse repurchase and stock lending agreements for efficient portfolio management purposes.

**Benchmark uses** The Sub-Fund is actively managed meaning that the investments are made on a fully discretionary basis. The Sub-Fund is not managed with reference to any benchmark.

**Redemption and Dealing** You can sell your shares any day that banks are open in Ireland and the United States. You must submit your application to the Sub-Fund's Administrator before 1.00 pm. three business days before the day on which you want to sell.

**Distribution Policy** Your shares do not pay you income, but instead the Sub-Fund reinvests any income to grow your capital.

**Launch date** The Sub-Fund came into existence in 2019. This Share class was launched on 08/04/2019. This Sub-Fund is the result of the merger of the MS Dalton Asia Pacific L/S UCITS Fund onto the Lafayette UCITS ICAV which occurred on 08/04/2019.

**Fund Currency** Reference currency of the Sub-Fund is EUR.

**Conversion of units/shares** You may switch your shares to the shares of another class of the Sub-Fund or another fund of Lafayette UCITS ICAV free of charge.

### Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium-low level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

### Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The manufacturer, Dalton Investments Inc., is not entitled to terminate the product unilaterally.

### Practical information

**Depository** The Sub-Fund's assets are held with its depository, Northern Trust Fiduciary Services (Ireland) Limited.

**Further information** Further information about Lafayette UCITS ICAV, copies of its prospectus, annual and half-yearly reports may be obtained free of charge in English. Write to the Sub-Fund's administrator, Northern Trust International Fund Administration Services (Ireland) Limited, at Georges Court, 54-62 Townsend Street, Dublin 2 or visit [www.longchamp-am.com](http://www.longchamp-am.com). ## What are the risks and what could I get in return?

### Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between 31 August 2021 and 31 August 2022.

**Moderate:** this type of scenario occurred for an investment between 31 May 2014 and 31 May 2019.

**Favourable:** this type of scenario occurred for an investment between 31 August 2012 and 31 August 2017.

## What happens if the Sub-Fund is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should we default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Sub-Fund to pay you.

**Be aware of currency risk.** In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at <https://funds.waystone.com/public>.

■ 10,000 EUR is invested.
